SUMMARY

Full–Stack Web Developer with a knack for learning and applying new skills as needed. Spent the last several months expanding my coding knowledge in an intensive full stack bootcamp through UNC while simultaneously tackling coding projects for clients in my Saxapahaw community. Patient, amicable, and works extremely well in teams. Flexible and quick to adapt when faced with obstacles.

PROJECTS

Eddy Pub Reservation System
 A web based application that allows the user to search for available reservations at the Eddy based on given date, time, and party number.

Languages/Frameworks used:
HTML5, CSS3, Javascript, Firebase, JQuery, and Bootstrap

Links to code and deployed application:
https://github.com/gdickey273/reservation-system
https://gdickey273.github.io/reservation-system/

What's in the Pantry
A web based application that allows the user to search for recipes that utilize ingredients they already have on hand.

Languages/Frameworks used:
HTML5, CSS3, Javascript, JQuery, and Bootstrap

Links to code and deployed application:
https://github.com/gdickey273/whats-in-the-pantry
https://gdickey273.github.io/whats-in-the-pantry/

Code Quiz
A web based application that quizzes the user on their computer science knowledge. Questions are chosen randomly from an array, answer options are presented in random order.

Languages/Frameworks used:
HTML5, CSS3, Javascript, JQuery, and Bootstrap

Links to code and deployed application:
https://github.com/gdickey273/code-quiz
